ABOUT ME

I am a Web Developer with a strong focus on building functional, responsive websites and data-driven solutions through web scraping and automation. I have experience developing clean, user-friendly web interfaces while designing systems that efficiently collect, process, and organize data from multiple online sources.

PROFESSIONAL HIGHLIGHTS

- Experienced in developing responsive websites and landing pages to support business and marketing goals
- Skilled in web scraping and structured data processing for research, reporting, and optimization
- Strong in automation and data handling using spreadsheets and web-based tools
- Able to bridge technical implementation with business needs
- Remote-ready, self-managed, and comfortable working with international teams

PENGALAMAN KERJA
